Security Solutions

As an independent consulting, analysis and engineering group, iSecure Solutions specializes in risk assessments, compliance and baselining a higher ed institution's information security readiness. We do this by analyzing your school's security gaps against industry standards and best practices.

Our experience, capabilities and portfolio of security solutions provide you with valuable, usable, security solutions to meet your institution's needs, while working within your budget.

Services Provided:

"How-To" Compliance Toolkit for the Red Flags Rules
